

We have opened the new International Hub in Sordio!

We are happy to announce that on 28 June we opened the **new GLS International Hub in Sordio**, in the province of Lodi.

The Hub is located on an area of about 27,000 sqm and has a covered surface of 12,034 sqm divided between offices, warehouse and additional facilities.

Thanks to this new hub, we will be able to play an increasingly central role alongside Italian companies that want to

expand their business beyond national borders.

The Hub is equipped with a high technological standard that allows it to sort more than 21,000 parcels per hour and has achieved the Building Research Establishment Environmental Assessment Method (BREAAM) Very Good certification.
